

2018 Race Weights and Scoring

Event weights for 2018 will be roughly based on criteria established by USA Triathlon for the purpose of administering their national rankings system. All Kinetic Multisports events will be weighted based on distance and size of event as well as multiplier if it has a championship status (ie; USAT Regional Championship, Collegiate, Best of US, etc) The event weight index will be used to calculate scores for all participants (See Scoring below).

Event Weight Classification Table

EVENT DISTANCE	DISTANCE FACTOR	DEPTH OF FIELD FACTOR (500+ FINISHERS IN 2017)
Sprint	0.91	0.92
Olympic	0.92	0.93
Long Course (Half)	0.93	0.94
Championship or Qualifier Status	+ 0.01	+ 0.01

Based on the above formula the event weights for the 2018 Kinetic Multisports events will be as follows:

Event Scoring Details

- The top five men's finish times will be used to create an average time that all men's finish times will be divided into. The top five women's finish times will be used to create an average time that all women's finish times are divided into.
- All male participants finish times will be divided into this average male "base" time to create raw scores. (same for females)
